TIRUMALA JEWELLERS: REDEFINING FINELY CRAFTED JEWELLERY

21 October 2020, 11:17 AM IST

The world of jewellery and ornaments has a deep bond with our society and especially for the women. It is not just a piece of decoration on the body but something which holds emotions, values and lot of relations. Given that, it is very important to go to a place where the quality is trusted and designs are finely crafted. It is here that [Tirumala Jewellers](#) is making its presence felt.

The journey goes a long way back for Tirumala as the family has been in this business since 1830s. Our forefather were official Jewellers of Nizam of Hyderabad. Tirumala Jewellers is one of the first

to introduce '16 hallmark standards for their entire stock line', says Amit Gupta. With the tree

Chat with us [Tirumala Jewellers](#) was born officially in 1994. The man behind this is Suresh Gupta

Apart from the above, [Tirumala Jewellers](#) has scored brownie points by giving personalized attention to their clients as and when needed and creating a strong everlasting bond of trust and mutual respect. Though they have been in this business since long, it is their work which did the talking with hardly any advertisements and publicity.

What keeps [Tirumala Jewellers](#) popular among the clients is their wide range of collections, especially the wedding collections.

With a diverse set of products be it studs, diamonds or gold, the variety is huge and it has become a one-stop shop for all jewellery requirements catering to many weddings and other functions. Most

importantly, it is the price, service and affordability which is giving that joy and satisfaction to the

ers.

However, with changing times and keeping in mind the requirement of clients who are living at far off places, the need to expand has come. As part of that, [Tirumala Jewellers](#) started focusing on upcoming areas and looked at having a spacious store as per current standards. In that process, the brand has moved to Jubilee Hills in August this year. That way, by imbibing the right value system and adhering to committed service, Tirumala Jewellers is redefining the world of jewellery in their own style.
